

# MEMBERSHIP CRITERIA 2024

## Dental Plan Membership

### Full (Voting) Members

1. Full Voting Members are companies providing dental benefits through one or more of the following products:

**Dental HMO** products provide comprehensive dental benefits to a defined population of enrollees and pay for general dentistry services from a contracted network of dentists primarily under capitation arrangements. This term includes point-of-service dental HMOs that provide an enrollee the opportunity to opt-out of the HMO provider network at the point-of-service and obtain dental services on a fee-for-service basis.

**Dental PPO** products have two key characteristics. First, dental plans enter into contracts with providers for the expressed purpose of obtaining a discount from overall fees. Discounts may be negotiated on a provider practice basis or through use of a schedule of fees. Second, enrollees receive value from these discounts when using contracted providers. Dental PPO products do not include participating provider agreements based on fee-for service where the provider and plan do not intend to reduce fees.

**Dental Discount / Dental Savings Plans** are products in which a group of participating dentists agrees to perform services for enrollees at a specified discounted price, or discount off their usual charge. This product provides access to participating dentists; however, the insurance carrier, third-party administrator or dental support organization does not assume underwriting risk. Therefore, payment under this product is made by the enrollee directly to the dentist based on the negotiated price/fees. These plans are not insurance. The definition of this product excludes concierge, direct primary care, pay-as-you-go and plans offered by solo dental offices.

**Dental Indemnity** products are dental benefit plans where providers are reimbursed on a fee-for-service basis and there are no discounted provider contract arrangements whereby the provider agrees to accept a fee below their customary fee.

2. A full voting member of the National Association of Dental Plans must be in good standing with the appropriate regulatory authority in its state/s of operation.

- All categories are eligible to serve on volunteer groups appointed by the Board and may attend meetings of such groups.
- Members admitted under prior dues criteria will be grandfathered as full voting NADP members.
- These criteria will be reviewed annually by the Membership WorkGroup and the Board of Directors as necessary.
